1. Executive summary

The Coordination Group on Global Policy Dialogue (CG GPD) was first instituted by the Bologna Follow Up Group (BFUG) at the Vienna meeting in fall 2018 on the basis of a [proposal](#) formulated by the BFUG Vice-Chair about how to follow the decisions and meet the **expectations expressed in the [Paris Ministerial Communiqué](#) and the [Statement](#) by the 2018 Paris Bologna Policy Forum**. It was proposed to create a small and agile ‘coordination’ group in order to work quickly, in view of the short time until the planned June 2020 Rome EHEA Ministerial Conference¹, and to further develop and put into practice the ideas proposed by the BFUG Advisory Group 1 on International Cooperation from the 2015-2018 work period. The Coordination Group on Global Policy Dialogue was **reconfirmed for the work period 2021-2024** to build on what had been accomplished and to explore **further cooperation with other world regions** and to **prepare the 2024 Tirana Global Policy Forum and Statement**.

The Coordination Group on Global Policy Dialogue is the result of the realization by the EHEA Ministers and the BFUG that the higher education world, by the end of the 2010s, was changing: the Bologna Process was not the only such process where countries were working to bring their higher education systems into closer connection, to facilitate mobility, transparency, quality and trust. From 2009 Louvain-la-Neuve to the Paris Ministerial Conference in 2018, the ‘**Bologna Policy Fora**’, held in conjunction with the Bologna Ministerial Conferences, had provided regular platforms for discussion about possibilities of cooperation among ‘Bologna’ and other countries. The Fora were inspired originally not only by a desire to showcase Bologna achievement, but also by the interest of other countries for the Bologna experience, which was taken by many as a model.

On the basis of the work carried out by the BFUG Advisory Group 1 in the lead-up to the Paris Ministerial Conference in 2018, it was decided to change both the name and the substance of the EHEA’s attempts to build synergies and connection beyond its confines. The new orientation stressed dialogue, in which the EHEA is one of a number of interlocutors, in what it is hoped can become ‘global’ dialogue in view of the emerging challenges which require worldwide cooperation, from climate change to novel digital advances, to achieving the United Nations Sustainable Development Goals (not only those regarding higher education). It stressed **dialogue, when possible, among higher education macro-regions**, rather than or not only with, single countries and organizations.

The remit of the CG GPD is twofold: on the one hand to **organize the Global Policy Forum (GPF)**, including the **Global Policy Statement**, and on the other hand to work to **strengthen the EHEA’s capacity for on-going dialogue with other higher education areas (Global Policy Dialogue)**, attempting to overcome the intermittent character that has often characterized it until now.

The **composition of the CG GPD** in the work period 2021-2024 comprises 17 country members and six organizations. In order to accomplish its objectives the CG GPD has held a number of meetings (in physical, hybrid and online formats). It has formed **5 subgroups**, to focus on particular parts of its overall remit, while participating in and informing the entire group constantly.

These subgroups are:

- Two ‘functional’ subgroups:

¹ Postponed to 19 November 2020 and taking place in virtual format due to the COVID-19 pandemic.

- The Global Policy Forum subgroup
- The Global Policy Statement Drafting subgroup
- Three 'regional' subgroups:
 - The Africa subgroup
 - The Americas subgroup
 - The Asia subgroup

Other informal ad hoc groups have worked on specific issues.

The Global Policy Forum subgroup has successfully designed and proposed to the BFUG a plan for the Tirana Global Policy Forum, and how it can best interact with the EHEA Ministerial Conference. [*Work on the details of the plan are still in progress*]

The Global Policy Statement subgroup has created a number of drafts of the Tirana Global Policy Statement. These have been shared with the BFUG, with the CG GPD, and with international partners during joint meetings held with Asian and African participants. [*It is now in Draft 5, soon to be finalized and adopted by the Forum.*]

The regional subgroups have experimented with various modalities of interaction with their designated macro-areas. All of these proved valid, especially:

- Online 'Colloquia' or 'Conversations' with relevant actors in the HE world of the target regions
- Participation in events held in the target regions
- Joint CG GPD – macro-regional meetings on occasion of meetings in Europe funded by partner organizations
- Invitations to significant non-EHEA partners to speak at CG GPD meetings.

All events and activities are geared to 1) understanding better the approaches, needs and interests of countries and regions beyond the EHEA – to listening to their concerns, learning about their context and priorities, and exploring where appropriate areas for cooperation can be found, and 2) informing about the aims and activities of the EHEA, not only the plans for the Forum, but also about what the 'Bologna Process' represents today, exploring the multiple remits of the BFUG and its working structures.

A specific strand of activity has been gathering ideas and building interest in the Forum and consensus around the Statement as an expression of the interests and commitments of all the countries and macro-regions involved in the Global Policy Dialogue.

Recommendations:

At the end of the work period, the CG GPD sees that much progress has been made. Contacts with macro-regional organizations in all three of the targeted macro-areas have been extended and consolidated. Important exchanges of information have taken place. Bases for further interaction have been created. The CG GPD recommends that in the future 2024-2027 work period the CG GPD be asked to:

- continue and strengthen its efforts to consolidate dialogue with appropriate countries and macro-regional organizations.
- continue and strengthen its efforts to create contacts and links between the BFUG working structures and appropriate international dialogue partners.

- Organize a future Global Policy Forum in 2027.
- Prepare the Global Policy Statement.

[further recommendations are being discussed]

2. Introduction

a. Mandate and Aims

The overarching aim of the Coordination Group on Global Policy Dialogue is to develop regular ‘dialogue’ with ‘other regions and international organizations’ on matters of common concern and relevance for higher education with respect to which cooperation and sharing of ideas and policies can be beneficial. This was first mandated in the 2018 Paris Communiqué and then confirmed in the Rome Communiqué in 2020. Further indications, from the Paris Bologna Policy Forum Statement, pointed to the usefulness of developing ‘interregional dialogue’, proposing, promoting or participating in international and interregional events in order to participate in and promote Global Policy Dialogue. The CG GPD was supposed to plan, according to these parameters, the Global Policy Forum to be held in Rome, and the Statement to be adopted there.

Because there could be no Global Policy Forum in Rome, due to the pandemic, the Global Policy Statement prepared could not be approved. With regard to the continuation and expansion of the efforts of the CG GPD the text proposed was: “We commit to interregional dialogue and confirm the need to further strengthen and better structure our cooperation in the coming decade, taking our good existing progress to the policy level.”

In the Rome Communiqué, the mandate is thus described: ***“We recommit to international dialogue on higher education values, policies, and reforms, drawing on the experiences of the EHEA as well as those of other areas of the world, and ask the BFUG to further develop and strengthen Global Dialogue in the coming work period.”***

b. Objectives

The objectives of the group are broad. First, the group must build on what had already been accomplished in the past, by BFUG Advisory Group 1 in the preparation of the 2018 Paris Ministerial Conference, and by the CG GPD itself from 2018-2020.

After the Rome Ministerial Conference it was responsible for continuing and strengthening the efforts to develop dialogue with other regions and organizations on matters relevant for Higher Education. It was to devise ways of achieving more constant and meaningful “interregional dialogue” and to propose and promote the organization of international and interregional events or, when appropriate, the designation of events already planned, as contributing to ‘Global Policy Dialogue (GPD)’.

The CG GPD was also charged with preparing and supporting the organization of a successful ‘Global Policy Forum (GPF)’, to be held on the occasion of the 2024 Ministerial Conference in Tirana, laying the foundations for continuation in the post 2024 period.

c. Context

Ultimately the CG GPD’s mandate is linked to the references in the Paris Communiqué:

“We commit to developing the role of higher education in securing a sustainable future for our planet and our societies and to finding ways in which we, as EHEA Ministers, can contribute to meeting the United Nations Sustainable Development Goals at global, European and national levels.”

“As a follow-up to the Bologna Policy Forum, we mandate the BFUG to enter into a global policy dialogue to improve regular cooperation with other regions and international organisations. This dialogue should focus on promoting mutual learning and joint initiatives on issues of common interest, such as social inclusion and the wider role of higher education.”

The CG GPD is also linked to references in the Bologna Policy Forum Statement adopted during the Paris meeting:

“We, the Ministers, commit to supporting this ongoing, successful interregional dialogue on issues of common concern amongst policy makers, stakeholder organisations, students, staff and higher education institutions. We propose the establishment of a Global Working Group in the next 2018 - 2020 Bologna work programme to take this agenda forward and we invite countries to express their interest to hold high level workshops on a yearly basis to continue the dialogue on social inclusion and the wider role of higher education.”

These texts formed the foundation for the CG’s work during the 2018-2020 period, which was both very brief and interrupted by the restrictions of the pandemic. The work, while it was cut short, was valuable, and formed the background for the continuation of the CG, as decided in Rome 2020. The inspiration for the CG GPD comes from the realization that today the EHEA is not the only higher education macro-region to have attempted to coordinate its national systems more closely. It can now be seen as a component, albeit a large, well-established and well known one, as in the global higher education world. The idea of a ‘Coordination Group’ which seeks constant dialogue with other world regions signals a positive evolution, in which ‘Bologna’ is not the only model, or interlocutor, for countries wishing to cooperate to enhance the quality and relevance of their higher education systems.

The work of the CG GPD, as mandated by Paris and Rome, resonates with and can contribute to worldwide cooperation in order to address the United Nations Sustainable Development Goals, and the UNESCO regional and global conventions, which have gained momentum with the entry into force of the latter.

Unfortunately, while a more closely cooperating higher education world is necessary for reaching shared goals, difficulties due to armed conflict and sometimes to internal political change introduce new obstacles. While we are convinced that global cooperation and particularly the facilitation of the mobility of students and staff is an important key for building better understanding and preserving world peace, this ideal is far from achieved. The international context during this work period has not facilitated our task, but rather made ever more evident how necessary it is.

d. Methodology & organisation

The Coordination Group (CG on GPD) according to the plan prepared in 2018 was intended to be a small operational group, not a broad ‘advisory group’. Already, however, in the 2018-2020 working period 16 members expressed interest in joining. In the present 2020-2024 working period, the official members have continued to be 15 (or 16 the Flemish and French communities of Belgium are considered separately to which recently a 16th (or 17th) has asked to join: Montenegro.). The various substructures have required and achieved the active participation of many individuals, to the extent that the current list of persons participating in the various activities of the CG GPD is 39.

The work period began with four co-chairs: the two Co-chairs from the previous work period, Belgium Flemish Community represented by Magalie Soenen (2021-2023) replaced by Liesbeth Hens (2023-2024) and Italy, represented by Ann Katherine Isaacs, to which were added Albania, represented by Linda Pustina, Vice-chair of the BFUG and the European Commission, represented by Fiorella Perotto (until 2023).

To carry out its activities, a number of smaller groups formed. First there are the two so-called 'functional subgroups':

- the subgroup on the Global Policy Forum
- the subgroup on the Global Policy Statement

Then there are three 'regional subgroups', charged with developing dialogue with three main macro-regions:

- the subgroup on Africa
- the subgroup on the Americas
- the subgroup on Asia.

In addition to these, a small ad hoc group, known as the 'Friends of the Friends', explored the feasibility of developing some form of acknowledgement for countries who cannot become members of the EHEA, but which attempt to 'align with Bologna'.

The Subgroup on the Global Policy Forum was chaired by Linda Pustina (Albania) with the Netherlands, United Kingdom and France.

The Subgroup on the Global Policy Statement was chaired by Ann Katherine Isaacs (Italy), and the members were Holy See, Ireland, Netherlands, United Kingdom, European Commission and ETUCE

The Subgroup on Africa was chaired by Fiorella Perotto (European Commission) until 2023 and by Elizabeth Colucci (EUA) in 2023-2024, and its members were Austria, Belgium French Community, France, Germany, Holy See, Romania, Netherlands, ENQA, EUA and UNESCO.

The Subgroup on the Americas was chaired by Ann Katherine Isaacs (Italy), and participants were Austria, Holy See, Ireland, Malta, Netherlands, European Commission and UNESCO.

The Subgroup on Asia was chaired by Magalie Soenen until 2023 and Liesbeth Hens in 2023-2024. The members were France, Germany, Holy See, Romania, Netherlands, European Commission, EUA, ESU and UNESCO.

The informal 'Friends of the Friends' subgroup was chaired by Ann Katherine Isaacs (Italy), with the participation of the Holy See, Ireland, Netherlands, United Kingdom and EUA.

The CG GPD has always underlined that the regional subgroups are not 'detached' from the CG GPD as a whole, but that they are delegated to take the initiative in conducting and strengthening dialogue with countries and organizations in their area of reference. De facto, they have also carried out such functions as formulating proposals of lists of countries and organizations from their region of reference to be invited to the Global Policy Forum, identifying possible occasions for joint meetings, and updating contact lists. Nonetheless, all CG members are invited to the activities proposed and organized by each subgroup. The 'functional' subgroups also shared their proposals with the rest of the CG when possible.

Minutes of the Coordination Group meetings and updates on its activities have been made available online by the BFUG Secretariat [on the EHEA website](#). The CG on GPD's Co-chairs have also regularly

reported to the BFUG Board and the BFUG at each meeting, and their reports are publicly available from the ehea.info website.

3. Activities, findings, results

In general, the remit of the Coordination Group is to promote more constant dialogue with other parts of the world (countries, macro-regions, organizations) on matters of common interest and concern relating to higher education, while gathering from and providing information and support to its dialogue partners, while leading up to and organizing the Global Policy Forum.

To do this, the Coordination Group on Global Policy Dialogue meets regularly. Its subgroups meet more often, according to their own schedule, but share their work and findings with the other Co-Chairs and CG members.

In the first part of the work period, the regional subgroups took the lead in updating contact lists, reconnecting with the partners engaged in dialogue in the previous work period, and identifying possible ways of interacting directly. Because of the continuing pandemic, meetings were on-line. The Coordination Group as a whole met frequently and was informed about the ideas and plans of the subgroups. While the regular CG GPD meetings have been supported by the IN-GLOBAL Project and by the BFUG Secretariat, which has prepared the minutes (publicly available on the ehea.info website), the subgroups have organized their activities autonomously.

The CG GPD has been able, as the restrictions due to the pandemic were removed, to organize some in person events with the support of the IN-GLOBAL project.

The ‘functional’ subgroups, tasked with the organization of the Global Policy Forum (GPF) in Tirana 2024 and the Drafting of the Global Policy Statement (GPS) to be shared with other world partners, modified appropriately, and hopefully agreed by the Forum, began their activities in the final two years of the working period. The Drafting Subgroup met frequently in the spring of 2023, and prepared its first drafts of the Global Policy Statement by late spring; and continued to work on further drafts, gathering input from the CG itself and from consultations with global partners, throughout the year. It shared drafts with the BFUG in Madrid in November 2023, and the subsequent Board and BFUG meetings, gathering comments and suggestions, in order to arrive at the final draft. The Forum Subgroup has held meetings in strategic phases of the organization of the Tirana Global Forum, inviting all Co-chairs to take part.

The ‘regional’ Subgroups all mapped their areas, expanded and updated their contact lists with regard to the previous work period, and experimented with different modalities for establishing and strengthening dialogue.

The **Africa subgroup** developed a successful format for ‘EHEA – Africa Conversations’, of which the first, on [‘Academic Recognition’ was held 12 December 2022](#), the second on [‘Recognition for Lifelong Learning’ on 6 June 2023](#), both on them online, and the third and final one in the context of a joint CG GPD and HAQAA3 meeting, held in Barcelona on 17-19 January 2024. The three Conversations addressed ‘Recognition’, identified as a topic of interest for both the EHEA and the African colleagues who were invited to participate in the events. Each of the three Conversations has given rise to a publications; these are available on the ehea.info and [IN-GLOBAL](#) websites.

The **Americas subgroup** held a “Colloquium on ‘Strengthening Higher Education Dialogue in a Global Perspective” on 5 December 2022, with HE authorities from MERCOSUR and the Andean Community

countries, hosted by Uruguay as pro tempore president of MERCOSUR. It yielded very interesting results, and a second Colloquium was planned during the first semester of 2023, which was to be hosted by Argentina. In the event, the Secretary of Higher Education of Argentina was unable to organize a similar Colloquium during Argentina's pro tempore presidency, although the subgroup co-chair attended online an international event, organized by Argentina, involving speakers from Argentina, and conducted follow-up interviews with some of the participants.

Members of the Subgroup (Ireland, Italy and ENQA) organized and held an in presence session at the Annual Conference of the CHEA-CIQG Conference in Washington DC on 25 January 2023. The title was *"Let's Talk!" Fostering Global Dialogue about Diversity in a Common Framework*". This session also yielded a number of useful contacts and insights. For the 2024 CHEA Conference, the Americas subgroup Co-chair, with the Co-chair of the Task Force on Enhancing Knowledge Sharing, held a hybrid session titled *"The role of Quality Assurance and Enhancement in the progress of the 'Bologna Process' and the European Higher Education Area (EHEA)"*, in Washington DC on 30 January 2024.

On occasion of the first Assembly of the States Members signatories of the UNESCO Global Convention on the Recognition of Higher Education Qualifications, held in Paris on 3-5 July 2023 Katherine Isaacs (Italy) was able to organize a side meeting with the UNESCO representatives responsible for IESALC and for the regional convention, where mutual interest in transparency tools to make the conventions operable was explored, and planned were made for future collaboration. In May 2023 the subgroup Co-chair was invited to give a presentation at the EU-LAC summit, hosted by the University of Santiago de Compostela, which saw the participation of the persons responsible for higher Education in numerous LAC countries. This led to useful contacts and interaction, and potential for organizing future dialogue.

A pilot event was a meeting organized between the Co-chair of the BFUG Social Dimension working group and the CEO of the US based Institute on Evidence Based Change. This, it is hoped, can show the usefulness of stimulating global contacts of the BFUG working structures, as further discussed below in connection with the Joint CG GPD/HAQAA conference.

Participation in the CRES+5 Conference in Brasilia is planned on 13-15 March 2024.

The Americas subgroup successfully submitted a [Policy Brief to the UNESCO WHEC22 Conference](#), held in Barcelona in May 2022 'Promoting Policy Dialogue among the European Higher Education Area (EHEA) and the other world higher education regions'.

The **Asia subgroup** has organized participation in:

- Conference of Central Asian Ministers of Education «Central Asian Higher Educational Area: regional cooperation, national reforms», 18 June 2022; 2 co-chairs participated (K. Isaacs & L. Pustina),
- EU-SHARE conference on micro-credentials, 20-21 July 2022, Bangkok; 1 co-chair and 2 group members joined (M. Soenen, EUA and Germany)
- Presentation of Global Policy Dialogue at the ISOM meeting in the ASEM Process, 24-25 November 2022, Malta
- ASEM Education Expert Group on Recognition and Balanced Mobility meeting, 13 February 2023, Online

It has also arranged for invited speakers to the CG meetings from the CAHEA (Central Asian Higher Education Area) and from ASEAN Secretariat (Association of Southeast Asian Nations).

It was possible to organize an important in person [Joint meeting of the Coordination Group on Global Policy Dialogue and participants invited by the Asia-Europe Foundation \(ASEF\)](#) “Higher Education Policies Working Towards the SDGs in Asia and the EHEA” in Rome on 27-29 September 2023. This meeting allowed both groups to engage in meaningful dialogue, as the CG GPD presented its Draft Statement, in preparation for the Tirana Global Policy Forum, and gathered input from the Asian representatives from Brunei, Cambodia, Lao PDR, Malaysia, Philippines and SEAMEO RIHED.

The sessions chaired by ASEF focused on discussion of the ARC9 Study on Asia-Europe Higher Education Mapping: Working Towards the SDGs, in view of the recommendations to be made to the 9th ASEM Education Ministers’ Meeting (ASEMME9) held on 25-26 January 2024. The recommendations were added to the [ASEMME9 Chair’s Conclusions and Stocktaking Report](#).

Further observations

The CG GPD considers that the modalities developed by the regional subgroups for engaging with other macro-regions are proving to be successful, and the subgroups are planning to utilize the solutions trialed by their colleagues.

In the IN-GLOBAL project, it was foreseen that there could be four ‘in presence’ events, one for each of the macro-regions: Africa, South America and Caribbean, Asia, and North Africa/Middle east. In practice, because of the funding rules, it has proved awkward and inappropriate to rely on such events, since only the EHEA participants could be funded. As a result, the on-line conversations and Colloquia and the Joint meetings, when these could support the participation of the non-EHEA participants, have taken the place of the ‘in-presence’ events.

The CG has realized the importance of organizing ‘dialogue’ between the BFUG WGs and TFs, in cases where there is a common interest: for example, non EHEA interlocutors interested particularly in ‘Inclusion’ or ‘Recognition’ could be asked/allowed to participate in the WG on the Social Dimension (a pilot meeting was carried out with the IEBC and the SD working group, or the TPG B of the BICG; the TGB B and C Co-chairs participated in the Joint CG GPD HAQAA event in Barcelona, also taking chairing roles). Such links prove useful and stimulating for both, our non-EHEA contacts and for the BFUG’s WGs. Establishing such links was not foreseen in the CG’s ToRs. But it now seems to be a logical and useful step to implement, in agreement, naturally, with the specific Working Groups.

4. Conclusions and recommendations for the future

Completing the work-plan, laying foundations for the future

The CG GPD, through its regional subgroups and their interactions, has been successful in building on the connections established during the previous work period, in consolidating existing links and building new ones. The subgroups have identified successful formulas for interacting with other macro-regions, and have created favorable conditions for developing these formulas and links in the coming work period. They have now become habitual interlocutors of a number of international organizations, and their ability to interact fully with all these partners is now limited only by lack of time and lack of funds.

In order to carry out its tasks, given the practical limits on what is possible, the regional subgroups have focused on:

- ‘Colloquia’ and ‘Conversations’: these are largescale online meetings with significant higher education representatives from the target macro area.
- Participation in international HE events held outside the EHEA, presenting information about the EHEA, and engaging in discussion on topics of common interest. This has been online when necessary and in person when possible.

The entire CG GPD has participated in:

- Joint meetings of the CG GPD with macro-regional organizations that have organized and funded meetings of their members in the EHEA: this is the case of the Joint Meetings with ASEF and with HAQAA, carried out in 2023 and 2024.

Exponents of higher education macro-regional organizations have been invited to be key note speakers in CG GPD meetings, and, thanks to the IN-GLOBAL Project it has been possible to conduct a consultation with HE stakeholders in countries not belonging to the EHEA, on their perceptions of Bologna and the EHEA, and the degree and sector of their interest, if any, in collaboration.

The ‘functional subgroup’ on drafting the Global Policy Statement has worked effectively, producing a series of drafts which take up suggestions and comments of CG members and non EHEA stakeholders to produced what is hoped to be a coherent and effective whole, which identifies the reasons for global dialogue and key sectors in which it can usefully take place.

The ‘functional subgroup’ on the Tirana Global Policy Forum has produced and presented successfully to the BFUG a proposal for the organization of the sessions and how it can interact with the EHEA Ministerial Conference *[details still to be defined]*

Contribution of the IN-GLOBAL project

When the work period began, there were still many restrictions on travel due to the pandemic. This forced the CG GPD to rely on virtual meetings. Nonetheless, the work gained momentum and it was eventually possible to plan and hold in person meetings, which greatly facilitated the development and enrichment of the group’s common understanding of its potential and the sharing of the results obtained.

Although the early meetings were held on-line, from spring 2023 on they have been held in presence, with a limited hybrid option where necessary.

The IN-GLOBAL project has made it possible to fund these in person meetings, and also to carry out several activities which otherwise would have been impossible. These include the organization, streaming and provision of simultaneous interpretation (English-French-Portuguese) of the Africa “Conversations”, vital for their success in involving key actors from the African Union countries and regional organizations.

It has allowed some travel to non-EHEA destinations to share information about the Bologna Process and the CG GPD’s hopes for more constant dialogue and more structured cooperation. It has also funded the largescale consultation on knowledge about and perceptions of the Bologna Process and

the EHEA in non EHEA countries, as well as the study and presentation of the data. It has made possible the production of dissemination materials (handouts during information sessions and conferences; news on social media; a filmed EHEA-ASEF interview, etc.)

The CG GPD is grateful to the coordinators of the IN-GLOBAL project for its support, and to the European Commission for funding it.

Recommendations for the future working period:

[Our recommendations are still being discussed]

5. ToR 2021-2024

Terms of Reference of the Coordination Group on Global Policy Dialogue 2021-2024

<p>Name of the Coordination Group</p> <p>Coordination Group on Global Policy Dialogue</p>
<p>Contact persons / Co-chairs</p> <ul style="list-style-type: none"> • Albania: Linda Pustina • Belgium Flemish Community: Magalie Soenen (2021-2023) and Liesbeth Hens (2023-2024) • European Commission: Fiorella Perotto (2021-2023) • Italy: Ann Katherine Isaacs
<p>Composition</p> <p>Albania; Austria; Belgium Flemish Community; European Commission; France; Germany; Holy See; Ireland; Italy; Kazakhstan; Malta; Montenegro; The Netherlands; Romania; Spain; United Kingdom; EI - ETUCE; ENQA; ESU - European Students' Union; EUA – European University Association; UNESCO.</p> <p>The Coordination Group can invite, when useful, relevant experts to collaborate in its work, from the EHEA or other parts of the world, and/or from international or global organisations (e.g. UNESCO regional experts, members of IAU, etc.)</p>
<p>Purpose and/or outcome</p> <p>To foster dialogue and build trust between the EHEA and other countries and macro-regions through exchange of knowledge and cooperation, with the aim of addressing overarching issues more effectively, such as achieving the United Nations Sustainable Development Goals by 2030.</p>

The coordination group is also tasked with the organisation of the 2024 Global Policy Forum and Statement, and where possible other appropriate events during the work period.

General objectives

- Reinforce ongoing dialogue at the global level;
- Achieve greater awareness of the various vital roles of HE in achieving the Sustainable Development Goals, and find paths for global collaboration to do so effectively;
- Propose how to enhance the EHEA's ability to foster, participate in and benefit from this dialogue.

Thematic objectives in the context of global cooperation

- Intensify focus on the societal role of higher education to foster effective inclusion of learners not only at the time of access to HE but also with respect to retention, success and employability;
- Promote inclusive mobility as one of the most important keys to global understanding and excellence in higher education;
- Promote further development and use in the practice of the transparency and quality tools necessary for advancing mobility and facilitating recognition;
- Create contacts and support reciprocal referencing of the several overarching Qualifications Frameworks and Qualifications Reference frameworks now functioning or being prepared in the EHEA and other macro-regions;
- Promote student-centred learning and understanding of credit systems or credit reference systems based on Learning Outcomes and student time;
- Develop dialogue about the challenges and opportunities offered by the shift towards digital learning environments, in part triggered by the pandemic;
- Ensure connection with the other BFUG Advisory, Working or Coordination Groups that address the above issues in the EHEA context.

Specific Tasks

- Suggest plans to the BFUG for the organisation of the Global Policy Forum to be held along with the Ministerial Conference to be hosted by Albania in 2024;
- Organise and implement events, meetings or other initiatives (including virtual events) to build awareness and dialogue with respect to the CG's overarching aims, the general or/and thematic objectives;
- Explore ways of initiating or consolidating contacts with other countries, macro-regions and organisations in order to develop and strengthen dialogue.

Reference to the Rome Communiqué

"While the COVID-19 pandemic has made it impossible to hold the Global Policy Forum as intended, we are pleased that our Conference includes a global session. We recommit to

international dialogue on higher education values, policies, and reforms, drawing on the experiences of the EHEA as well as those of other areas of the world, and ask the BFUG to further develop and strengthen Global Dialogue in the coming work period.”

Reporting

Minutes of coordination group meetings and updates on activities will be made available online to the BFUG by the BFUG Secretariat. The BFUG Secretariat, at the request of the CG Chairs, may circulate relevant updates to the CG members. The BFUG shall also receive regular reports and updates from the group. To ensure good communication with the BFUG as a whole and for the necessary consultations, progress reports shall be submitted two weeks before each BFUG meeting.

Meeting schedule

Meetings can be electronic or in presence, according to what will be possible and appropriate in the post COVID era. Smaller ad hoc groups or task forces may be delegated for specific tasks. The exact programming will be discussed by the Co-chairs and the members of the Coordination Group.

Liaison with other WG's activities

TBD

MCU = Magna Charta Universitatum

SDG = Sustainable Development Goals

8. Annex I Statement of the Bologna Global Policy Forum

[Tirana May 2024] *[this is the Draft 5, to be updated]*

Draft Statement of the EHEA Global Policy Forum

We, the Ministers responsible for higher education, heads of delegation, representatives of students, organizations and institutions participating in the EHEA Global Policy Forum, reaffirm our conviction that higher education must expand its ability to address present and future challenges to global peace, development and wellbeing.

In 2020, the EHEA Ministers in their Rome Ministerial Communiqué committed to “developing a more inclusive, interconnected and resilient European Higher Education Area (EHEA)”. We all aspire to a world that recognizes that quality education for all is a basic human right and where for all human beings the global target to “Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all” becomes a reality, in line with the United Nation Sustainable Development Goal (SDG4).

In the lead up to the Forum, the Coordination Group on Global Policy Dialogue has explored, region by region, opportunities for exchange of views and information on topics of common interest. Conversations, colloquiums, seminars and conferences have allowed us to share information about the similarities and differences between our higher education systems and the challenges we face, and to identify the added value of global dialogue between regions.

We aim, through multilateral cooperation, to continue to foster mobility, to strengthen respect for fundamental values such as academic freedom, to improve the quality, relevance and inclusiveness of higher education, and to contribute to lasting peace. Our shared objectives and the ever greater connectedness of our higher education institutions, provide a strong foundation for dialogue and inter-regional and global cooperation.

Physical international mobility, of both students and staff, fosters intercultural and international understanding. Innovative blended mobility experiences and virtual international learning environments are increasingly important, and can open up new opportunities. We commit to working together on and sharing the tools necessary to support mobility and the recognition of foreign qualifications and learning periods abroad, in ways that foster reciprocal development, consolidate trust, and improve compatibility, cooperation and transparency between macro regions.

To achieve a more inclusive higher education world, we need to ensure equitable access, higher rates of admission and retention for all students, aspiring to provide equal access for all women and men to affordable and quality tertiary education (cf. SDG 4.3).

We can further adapt our systems to serve a student body that is representative of the socio-demographic structure of our countries and enhance the inclusiveness of our academic staff. We aspire to ensure equal respect and recognition for the teaching and research of our academic staff, and the attractiveness of teaching as a career.

We aim to improve our institutions’ capacity to retain learners and equip them with the competences they will need for employment and for their personal and civic lives, as well as an awareness of and commitment to the principles of sustainability. We also commit to supporting higher education institutions to deepen their engagement with their communities, stakeholders and the labor market.

Moving forward:

We see positive potential for all our countries in continuing to work together to:

- Further develop all forms of reciprocal mobility of people and knowledge, both in and across regions, as one of the most important keys to global understanding and to excellence in higher education, balancing incoming and outgoing mobility.
- Reach a common understanding of the ethical principles and values of international academic cooperation by sharing, on an equal footing, our experiences, practices and lessons learned on global issues such as access to quality education, effective quality assurance practices and principles, and attractive academic careers.
- Develop joint approaches to the handling of, adaptation to and, as much as possible, shaping of technological developments, most notably artificial intelligence and, along with this, deal with the challenge of disinformation.
- Make learning credits comparable and transferable according to compatible standards and overarching frameworks, building transparency and understanding at global level and providing secure modes of digitalization of data on qualifications and learning achievement.
- Foster innovation in learning and teaching, including digitally supported learning and teaching, and opening up to new skills and ensuring their link to employability, while addressing the ongoing issues of unequal access and retention.
- Promote the importance of student-centered learning taking place in a research-rich learning and teaching environment, and the implications of this for the flexibility of study programs and lifelong learning pathways, including forms of informal education.
- Further facilitate access to higher education by underrepresented groups, including refugees, and strengthen the links between higher education and other systems such as VET to reach untapped talent.

We consider the entry into force of the UNESCO *Global Convention on the Recognition of Qualifications concerning Higher Education*, a landmark achievement, and call for its ratification. Building on pre-existing regional agreements, it is an important step towards reaching Sustainable Development Goal 4. To benefit fully from this achievement, we commit to working towards a shared understanding and, where possible, comparability between national and regional Qualifications Frameworks, Qualifications Reference Frameworks, and Quality Assurance systems and mechanisms developed in different world regions.

Continuing Dialogue

We take up our responsibilities towards our countries and peoples, in order to release the potential of higher education to find shared solutions to the world's challenges. We want to support present and future generations in learning to think and act ethically, creatively and critically, enabling them to address and resolve the challenges of the future. Key to this is that higher education plays its pivotal role in the realization of all the United Nations Sustainable Development Goals. Increased cooperation within and among regions will strengthen our ability to elaborate and implement innovative and inclusive solutions, respecting the resource limitations of our planet.

In this regard, we invite all participants to continue to promote global policy dialogue and to identify, region by region, the themes where synergies can be found between the EHEA and, on the one hand, with global organizations such as UNESCO and OECD, and, on the other hand, with intergovernmental processes, such as the Berlin Process, the Asia-Europe Meeting (ASEM) Education Process, the Central Asian Higher Education Area (CAHEA), the Union for the Mediterranean, Euro-Latin American and Caribbean (EU-LAC) space as well as ongoing transnational projects regarding recognition, quality assurance and qualification frameworks.

We recognize that each region has its own priorities and see that such diversity enriches our dialogue. We encourage the BFUG to create bridges between EHEA working structures² and parties interested in deepening dialogue (through seminars, conversations, and joint events) on (but not limited to) the above mentioned topics.

The next EHEA Global Policy Forum will be held in 2027 in *[to be decided]*.
