

I'MINQA - Peer Learning Activity 2

Cross-Border Quality Assurance and Quality Assurance of Transnational Education

21 March 2023 - Bucharest, Romania

With the support of the
Erasmus+ Programme
of the European Union

Cross-Border QA from an institutional perspective

our understanding
in a:

Romeo Teodor Cristina
U.L.S. "King Michael I" Timisoara
Faculty of Veterinary Medicine

Hello!

I am Romeo, 1962

I was born in ...

So also did my Faculty...

For a human, is sooo much!

For an institution, is yet "childhood".

But WE both tried to IMPROVE...

We need recognition all our life!

And this can be obtained through internal and international validation:

National we have our **ARACIS / Commission 9**

and International, **EAEVE**

In **2021**, out of the **110** Veterinary Educational Establishments existing in Europe, **101 are members** of the EAEVE! **We entered in 2004!**

Fact “Pressure up...”

The EAEVE's **primary objective** is:

to monitor the **harmonization of the minimum standards** set down in the study curricula for veterinary surgeons in the **European Union Directive 2005/36**, enacted through the **European System of Evaluation of Veterinary Training (ESEVT)**, managed by the EAEVE having **joint responsibility** with the **Federation of Veterinarians of Europe (FVE)**.

The EAEVE/FVE evaluation system gives assurance to:

- **the public** – to know they can trust the **quality** of graduating veterinary surgeons and the service they deliver,
- **the veterinary students** – to know their education reaches **agreed and acceptable standards**,
- **the veterinary establishments** – to know that their curricula and School, reach the U.E. **agreed benchmarked level**.

Concept

internal European professional peer evaluation systems of veterinary educational establishments.

Function

The basic detailed procedures are set out in the **Standard Operating Procedures (SOPs)**.

All this is to drive the **harmonization** of research-based **specifically veterinary education** and its constant evolution in the context of societal and economic challenges.

The SOP's evolution:

Turin	2021
Nantes	2020
Zagreb	2019
Uppsala	2016
Budapest	2012
Lyon	2011
Hannover	2009
Copenhagen	2008

Our first contact with the EAEVE exigences:
December 2010 the initial visit with conditional evaluation:
Not approved, (there were 8 deficiencies).

2010-2014

Annually, the Establishment sent to ECOVE reports with the changes done addressing each of the

ECOVE decisions:

Approval

**Re-visit
October 2014**

The F.V.M. Timisoara is graded after revisitation (Stage 1) as:

**Visit
February 2020**

The Faculty was visited by the EAEVE Commission based on the SOP Zagreb 2019.

	Iasi	Candidate member	Non-Approval	-	-
	Timisoara	Full member	Accreditation	February 2020	February 2027

Follow-up visit in 2022

Conclusions

- Through the quality management system, developed and implemented in the last years, our Faculty has improved its activity, to fulfill its mission and objectives... **but steps forward are still to be done!**
- Our Faculty also in the future will stay connected to the **EAEVE expertise** to keep up with **all quality requirements** and standards for **veterinary training** in Europe.
- We consider that deficiencies identified in 2020 were solved due to the **consistent financial support** received by the UNI from the state budget and through the measures recommended by VEE.

F.V.M.T. salutes you!

Thanks!
