	policy makers, funding agencies, and universities themselves.	
	poney makers, runding agencies, and universities themselves.	

EUA-CDE THEMATIC WORKSHOP "SUSTAINABILITY IN DOCTORAL EDUCATION: DEVELOPING A STRATEGIC APPROACH"	This event explored how universities can develop a strategic approach to sustainability in doctoral education, how doctoral education plays an important role in "greening" the activities of universities and how this connects to the Sustainable Development Goals as a comprehensive framework in this field.	https://eua.eu/events/240 -2023-eua-cde-thematic- workshop.html
EUA INPUT TO THE PUBLIC CONSULTATION ON THE PAST, PRESENT AND FUTURE OF THE EUROPEAN RESEARCH & INNOVATION FRAMEWORK PROGRAMMES 2014-2027	As part of a recent public consultation conducted by the European Commission on the past, present and future of the European research and innovation framework programmes, the European University Association has outlined a series of recommendations aiming to improve Horizon Europe and contribute to the design of the programme that will succeed it.	https://eua.eu/resources/ news/1019-eua- recommends- improvements-to-eu-r-i- programmes.html

	<u>assessment</u> . The	organisations, while respecting organisations' autonomy. It outlines

	Agreement is open for signature of European research and higher education institutions.	commitments for better recognition of the diverse practices and activities that maximise the quality of research as well as a move away from inappropriate uses of metrics (such as rankings). Since September 2022, the Agreement is open for signature, in order to join the Coalition for Advancing Research Assessment (CoARA), which will be formally launched on 1 December 2022. Reforming research assessment is a priority for EUA, as part of the wider strategic
		aim of reforming of academic careers outlined in <u>Universities without walls – A vision for 2030</u> . Since December 2021, EUA is actively involved in an initiative to create a coalition for advancing research assessment system.
SPHERE - CENTRALISED SUPPORT TO HIGHER EDUCATION REFORM EXPERTS	OBREAL Global and the European University Association are implementing a new phase of the SPHERE project.	SPHERE supports the network of higher education reform experts (HEREs) in European neighbourhood countries (Southern Mediterranean, Western Balkans, Eastern Partnership, Central Asia). During current period of the Erasmus+ Programme, the SPHERE project will provide centralised support, training and services to the HERE, notably through training seminars and study visits, conferences, HERE networking events, Technical Assistance Missions, follow-up dissemination activities, publications and reports. The launch event of the project is planned for 3-4 May 2023, online. The first day of the event will be open for the HERE and NEO only, while the second day will also welcome ministries and national agency officials, senior managers of institutions, student representatives, academic and administrative staff. Please contact sphere@eua.eu should you wish to receive more information about the project or the event.
AUTONOMY SCORECARD COUNTRY PROFILES	Based on its methodology, the Autonomy Scorecard monitors, measures, and compares the autonomy of public universities across Europe	The Autonomy Scorecard report is complemented by a series of country profiles to be released throughout 2023. The profiles summarise the Autonomy Scorecard information per higher education system, complemented by contextual information and views from the sector.
SECTORAL REPRESENTATI ON IN THE EUROPEAN RESEARCH AREA	EUA represents the university sector on the ERA Forum.	EUA successfully advocated for the inclusion of stakeholders in the European Research Area's governance. The university sector is now represented on the ERA Forum, where the Commission, member states, associated countries and stakeholders co-design and implement the ERA Policy Agenda. The Association coordinates and leads the sector's efforts, alongside ten fellow associations.
COALITION FOR ADVANCING RESEARCH ASSESSMENT (COARA)	EUA was at the heart of a major new initiative on reforming research assessment, resulting in the Agreement on Reforming Research Assessment and the establishment of CoARA.	Research assessment reform is a strategic objective for EUA as part of the broader reform of academic careers —one of the priorities for action outlined in "Universities without walls".
DIAMAS PROJECT	3-year project funded by Horizon Europe to foster the	Partners of the <u>DIAMAS project</u> are working together to deliver an aligned, high-quality, and sustainable institutional OA scholarly publication ecosystem for the ERA, setting a new shared and co-designed standard for Diamond OA publishing, a scholarly publication model in which journals and platforms are free for

	development of	authors and readers. The achieve these objectives, the DIAMAS project recently
	Diamond Open	launched a survey on Diamond Open Access and institutional publishing
	Access Publishing.	landscape. The consultation aims to map how the sector of scholarly
		communication is currently organised in order to understand existing challenges
		and begin to develop resources, tools, policies and strategies which support
		relevant stakeholders.
IRECS	3-year project	iRECS will develop and disseminate proposals for the adaptation of the ethics
