III. Policy background: In the framework of the Bologna Process, the ministers responsible for higher education agreed that the student body entering, participating in and completing higher education at all levels should reflect the diversity of the population living in the different European regions (London Communiqué, 18 May 2007).

III.1. How is the objective of widening participation reflected in steering documents of your country?

It is reflected through a set of concrete measures.

III.1.1. Please indicate these measures in the form of bullet points:

- every academic year Government of the Republic of Macedonia adopts a separate decision for enrollment quotas for students belonging to minorities that is 10% of total enrollment places on every study programme;
- member of CEEPUS programme;
- separate enrollment quotas for foreign students.

III.2. Do steering documents of your country refer to any quantitative objectives to be reached regarding the population entering, participating in and/or completing higher education?

No, there are no specific quantitative objectives to be reached.

Since now such objective has not been set but in the new programme for higher education and research (in phase of preparation) it is proposed the following:

- student population entering HE not less than 75% of graduated in secondary school;
- student population completing HE not less than 60%;
- graduates entering the labour market, not less than 65%.

III.2.1. Please indicate which statement(s) best describe(s) your country-specific situation: The quantitative objectives are formulated in terms of:

- student population entering HE
- student population participating in HE
- student population completing HE
- graduates entering the labour market

III.2.2. Please specify the quantitative objectives and the period they cover. Please also indicate the steering documents in which they are stipulated (reference and link).

III.2.3. Please indicate which underrepresented groups are covered by the quantitative objectives, what they are and which period they cover. Please also indicate the steering documents in which they are stipulated (reference and link).

III.2.4. Comments

III.3. Are there any mechanisms in your country, which encourage or oblige higher education institutions to participate in a systematic monitoring of the composition of the student body?

- Yes
- No

III.3.1. Please provide a short description of the mechanisms in place:

According article 77-k of Higher Education Act

For the purpose of following the higher education activity in the Republic of Macedonia, as well as for the purpose of preparing indicators for the quality and fulfillment of the higher education activity and the manner and frequency of their collection, the ministry responsible for the activities in the field of higher education shall provide conditions for implementation and provision of a database of higher education activity. The database shall be implemented and maintained by the ministry responsible for the activities in the field of higher education. The State Education Inspectorate shall control and monitor the information indicators from the database.

The manner and procedure for keeping the database shall be prescribed by the minister responsible for the activities in the field of higher education.

The facilities shall be obliged to deliver data for the database that is kept by the ministry responsible for the activities in the field of higher education, as well as to regularly consult and coordinate with the Board for Accreditation and Evaluation for the purpose of submitting information on the syllabuses and similar.
The faculties shall be obliged to quarterly deliver the data to the ministry responsible for the activities in the field of higher education. 
The Statistical Office of Republic of Macedonia collect data for higher education too.

III.4. Please indicate the stages at which the composition of the student body is subject to systematic monitoring and the student characteristics which are taken into account at these stages. If there is no systematic monitoring at the given stage, please tick "not applicable".

III.14. Are there any incentives for higher education institutions to admit non-traditional students?

- No

III.14.1. Please indicate which incentives exist and how they operate.

Do they apply to all HEIs or only to some HEIs? If they only apply to some HEIs, please indicate to which ones.

III.16.1. Please provide details on these programmes, the qualifications they lead to (e.g. standard upper secondary school leaving certificate, qualification/certificate that differs from the standard upper secondary school leaving certificate) and the number of participants completing the courses (latest available statistics):

- It is about students who have graduated from three length of vocational secondary schools. For them, there is a possibility to gain qualifications of the fourth year of secondary school that allow them enrollment on higher educational institution.
